# B&W/COLOUR

The culmination of three years of professional dance training as our graduating cohort of dancers in collaboration with our year 4 production artists present an electrifying performance. Blending contemporary, jazz, hip hop, and aerial choreography into a single, captivating narrative – futuristic, dystopian, a realm of creativity that knows no bounds.

With moments of live music throughout show - experience the raw talent and dedication of our dancers and production artists as they take you on a journey through mind, movement and music.

## ARTISTIC DIRECTOR'S NOTE

Welcome to the production of B&W/Colour. We combine opposites of black and white to create a vibrant, colourful show. This show is an exploration of the intersectionality of human experiences and emotions, celebrating the diversity of our third year cohort and their unique backgrounds. Creatively we illuminate the complexities of mental health to celebrate resilience and inspire hope. I would like to give special thanks to the choreographers, production team and the dancers for their hard work and input to the process, bringing my vision to life.
